Dybuster

General Remarks

The licenses for professional usage of Orthograph and Calcularis are summarized under the term „Dybuster School". The annual license fee includes:

- Usage anywhere and anytime, especially at home and at school.
- Free usage by teachers and coaches. The prices only depend on the number of students.
- Up to date version, data back-up, server communication

Orthograph   **Calcularis**

User Based Licenses

The students can be in different classes and from different grades. They might also be supported by several teachers, therapists or special needs teachers. A user based license can be transferred from one student to another during the license year.

Number of classes using a program	Annual license fee			
	Orthograph	**Calcularis**	**Orthograph/ Calcularis**	**Course compl. Orthograph**
Price per students	100.-	100.-	100.-	10.-

The prices for Orthograph and Calcularis are the same. There is no rebate for a combination. If a student is to use both programs at the same time, the student needs a license each. The minimal number of users is 5. The minimal price is therefore at least EUR 500.00

Site License

The school size is calculated based on the number of students at an institution without kindergarten and 1st grade. A separation into elementary school and advanced levels is possible.

School size up to #students	Annual license fee			
	Orthograph	**Calcularis**	**Orthograph & Calcularis**	**Course compl. Orthograph**
50	700.-	550.-	1'000.-	35.-
100	900.-	700.-	1'275.-	45.-
150	1'100.-	850.-	1'550.-	55.-
200	1'300.-	1'000.-	1'825.-	65.-
250	1'500.-	1'150.-	2'100.-	75.-
300	1'700.-	1'300.-	2'375.-	85.-
350	1'900.-	1'450.-	2'650.-	95.-
400	2'100.-	1'600.-	2'925.-	105.-
Per +50 students	+ 200.-	+ 150.-	+ 275.-	+ 10.-

The site license is independent of the actual number of students using a program. It allows everybody at a site or institution to use a program. In contrast, class licenses and user based licenses depend on the usage. It makes sense to move from user based licenses to a school license, if approx. 8% of all students, i.e. half of the students affected by dyslexia or dyscalculia, use a program, or if a program should be made available to all students as part of inclusive schooling. For class licenses, it makes sense to change to a school license, if approx. 30% of all classes use a program. "Site license" does not limit the usage to the physical site. Usage is allowed anywhere.

Additional Courses

The Orthograph licenses contain an English vocabulary of the most frequent and most simple 8,000 words. Additionally, there is vocabulary i.e. courses available for French, Canadian French and German.
